Mr Koster,  
Kalbergen 46  
1104 LB  
AMSTERDAM  
HOLLAND

Dear Mr Koster,

Thank you for your enquiry. Have included details in Dutch but am not sure how up to date that letter is!

Details of our astrology programs for the Amstrad 8256/8512 are enclosed - please refer to the letter I in the catalogue since it uses a form of MBASIC. With the Amstrad 8256/8512 all symbols are now shown on the screen and printer. This includes the chart wheel - the catalogue is out of date in this respect.

The A3 program will cover most of the techniques covered by the Faculty of Astrological Studies and the Mayo school of astrology in their Diploma courses. A useful addition to the A1 and subsequent programs (not A0) is the symbols chart wheel. There is also the autogaz which allows the creation of a very large gazetteer limited only by the available disc space.

The largest disc calculation program currently available for the 8256 includes the A10 plus all transits, all harmonics, all progressions, chart wheel and autogaz and is £124 on disc.

We now have a sophisticated Hindu astrology program (£30) for the Amstrad 8256/8512 which gives information according to the traditional methods of Vedic astrology, showing the strengths of the planets, the various major periods, transits, etc. Accompanied by a 24 page booklet giving an excellent introduction to this subject for Western Astrologers.

Starword is available in two versions, one for the 8256 and one for the 8512. Please note that this is English language only. Translation would be very difficult and we would recommend that the Chartmaster is more suitable for this.

There is also the powerful Handwriting Analysis program which comes complete with a beginner's guide to Graphology.

A new program is the Midpoint Trees - see page 12. This depends on the A1 or larger calculation program.

Payment can be by Access/Mastercard, Visa, Eurocheque, Sterling Bank Draft or international postal orders made payable to C S Miles. If you have a Giro Account then you can pay direct to C S Miles, giro account no 36 622 9605.

If you have any further queries please write, or phone during the day (NOT weekends). We offer full support on all our programs. I look forward to hearing from you.

Yours sincerely,

Colin Miles

Colin Miles, B Sc., DMS Astrol

Vriendelijk dank voor uw aanvraag. U vindt de gegevens over onze astrologieprogramma's voor de Amstrad 8256 in bijgaande catalogus onder referentie I, voor CP/M machines die MBASIC gebruiken.

Voor de absolute beginnebr bevelen wij onze introductiepakket aan. Voor degenen die iets gevorderd zijn is het A3 programma geschikt om de meeste berekeningen uit te voeren die men nodig heeft. Voor de ervaren astroloog zijn de A(, A9 of groter programma's beschikbaar. Nuttige aanvullingen voor deze zijn (waar er voldoende geheugen beschikbaar is) de Autogaz (alleen op disc) en de printer horoscoopwiel-module. Deze laatste (niet standaard in de programma's A1 tot en met A10), geeft een wiel voor die horoscooproutines die door uw programma berekend kunnen worden. Dus als u alleen de geboortehoroscooproutine heeft alleen dat wiel doch als u de andere heeft zoals progressieve-, compositie-, relatie, of Zonne- en Maan horoscopen kunt u eveneens daarvan horoscoopwielen afdrukken met tot vijf planeten in een huis.

Het meest compleet programma dat wij op het ogenblik kunnen leveren is het A10 plus alle Progressie-modulen, alle Transits, alle Harmonieen, Maanfasen en de twee-letter Wiel-module. Dit geheel kost £125 plus £4 voor de disc. Aanvullende programma's die toegevoegd kunnen worden aan de disc of direct verbonden kunnen worden via het menu zijn het printer Bioritmen programma, de Astrotutor serie I, II, en III, (respectievelijk £15, £5, £30). Er zijn ook de Opmerkingen-sorteerder, (£4<sup>5</sup>), en de Fertiliteitscalculator £10). Het Kladlookprogramma dat £28 kost, of £20 indien u daarbij minstens het Alkoopt, is ook verkrijgbaar.

Mocht u andere vragen hebben schrijft u gerust, of bel tijdens kantooruren (NIET's weekends s.v.p). Wij proberen u zoveel mogelijk te informeren over al onze programma's. In afwachting van uw verdere reactie, verblijven wij, met vriendelijke groeten.

Hoogachtend,

Colin Miles, B Sc., DMS Astrol

P.S. Als u de voorkeur geeft aan het nederlands kunt u ook contact opnemen met de heer Frank Oattes, Burg. Mostermanslilaan 17, 5737 Ce Lieshout. tel:- 04992-2858

	£16.95	James Braha	

The Schools of astrology have long used Margaret Hone's, "The Modern Textbook of Astrology" (£5.95) as the basis for their courses.

For more critical reviews of astrology read any of the books by Michel Gauquelin - eg "Cosmic Influences on Human Behaviour". Also "Astrology, Science or Superstition", by Professor Eysenck and David Nias. Anyone wishing to do serious research on Astrology should first read the comprehensive and critical review of astrology by Geoff Dean and Arthur Mather entitled, "Recent Advances in Natal Astrology" (£10). The Astrological Association also publish a journal called "Correlation", which is devoted to serious research.

Please note that this book list is only intended as a VERY BRIEF guide to what is currently available. Astrology is a very diverse subject and the serious student will read as widely as possible BEFORE deciding what is right and what is not; and BEFORE practising seriously. We would suggest that you contact the following book-shops/publishers for more advice and information where necessary.

David Jones, Emergence Mail Order Service, 5 North Parade, FROME, Somerset.  
Tel:- 0373 73069

L.N. Fowler (Sales) Ltd., 1201 High Road, Chadwell Heath, Romford, Essex

To join the Astrological Association write to Angela Cornish, 2 Waltham Close, Abbey Park, West Bridgeford, Nottingham N62 6LE

Please include a stamped addressed envelope when writing for information to any of the above addresses.
